

ABOUT THE AUTHORS

Winnie Dunn, PhD, OTR, FAOTA, is professor and chairperson of the Department Occupational Therapy Education at the University of Kansas Medical Center. She has conducted extensive research on sensory processing, has published many articles about the characteristics of sensory processing in daily life, and offers guidance about intervention planning. **Jessica Saiter, OTR**, is a research assistant and instructor for the Department of Occupational Therapy Education at the University of Kansas Medical Center. As a service provider, she supports families of children with autism and related developmental disorders within their natural environments. **Louann Rinner, MEd, OTR**, is clinical occupational therapist and coordinator of occupational therapy student training at the University of Kansas Developmental Disabilities Center. Address: Winnie Dunn, University of Kansas Medical Center, Occupational Therapy Education, 3901 Rainbow Bldg., Kansas City, KS 66160-7602.
